

PRIME BROKERAGE AGREEMENT WITH MASTERFOREX, LTD

We are excited to announce that MasterForex, Ltd has signed a brokerage service agreement with Divisa Capital, LP ("DCFX") to provide liquidity and technology solutions for their clients.

As a Currenex™ Prime Broker, with access to prime liquidity from top tier financial institutions around the globe, DCFX is able to deliver exceptional pricing and trade execution to our clients. Straight Through Process ("STP") trading eliminates dealer intervention and streamlines the execution process especially during peak trading times when most brokers fail to perform.

MasterForex's MT4 trading server has been integrated via FIX API connection into our Currenex™ hub.

Under this agreement, MasterForex will instantly and automatically transfer 100% of its client's trades into Divisa Capital's Currenex™ hub. MasterForex's MT4 trading platform will receive unfiltered and unmodified pricing permitting their clients to trade with no hidden fees, have the same functionality they are accustomed to on the MT4 platform and be able to trade as low as \$10,000 base currency.

About Divisa Capital

DCFX is an investment house that provides spot foreign exchange trading services to a diversified client base that ranges from financial institutions through to private individuals. <http://www.divisafx.com>

About Currenex

Currenex is the leading provider of fully integrated, high-performance FX trading solutions for customers that require advanced technology and diverse liquidity. With its award-winning suite of trading, workflow processing and market data services, Currenex satisfies the needs of the entire FX community — from high-speed professional traders and banks to retail trading providers. Currenex is a leading provider of FX spot, forward, swap, loans & deposits and metals trading technology via an anonymous exchange model.
